Where Your Career Karma Actually Points

Aanya, your chart has a clear answer to this question. Four planets sit in your 10th house of career. Jupiter, your career planet, sits in its own sign of Sagittarius in the 7th. Your soul planet is the Sun, your career planet is Jupiter, and the planets converge on the same sector of the chart. The reading is not subtle here.

Your soul came in to do something specific. Marketing is adjacent to it but not the centre. The pivot you are sensing is real, and the chart points cleanly toward where it should land. The reading that follows tells you what your career karma actually shows, why marketing was the right first chapter, why you are outgrowing it, and which roles and industries the chart endorses next.

Your Chart at a Glance

The sky at the moment of your birth on 12 April 1996, at 11:24 AM in San Francisco, gave you a Gemini ascendant in the star of Ardra, a Capricorn Moon in Shravana, and a Pisces Sun in the final degree of the sign. Below are the placements that matter most for the question you asked.

CHART ESSENTIALS

ASCENDANT	Gemini, with Ardra rising, ruled by Mercury
MOON	In Capricorn, 8th house, in Shravana, the listening star
SUN	In Pisces, 10th house, in Revati, at the very last degree
SOUL PLANET	The Sun, conjunct Mars, Saturn, and Ketu in the 10th
CAREER PLANET	Jupiter, in its own sign of Sagittarius in the 7th
CURRENT PERIOD	PLANETARY Jupiter, sixteen-year chapter that began August 2021
KARMIC WEATHER CYCLE	Aquarius period, running 2023 through 2027
DISTINCTIVE 10TH HOUSE	Sun, Mars, Saturn, and Ketu all conjunct in Pisces

Three things stand out. First, your career planet Jupiter is in its own sign in the 7th house. This is one of the strongest possible positions for a career planet. Second, your soul planet, the Sun, sits in the 10th house of public career. The chart is telling you directly that your career is not one dimension of your life among others. It is the central organising axis. Third, you are presently five years into a sixteen-year Jupiter chapter that the chart designed precisely for the building of your professional identity. The pivot you are considering is exactly what this period is for.

03 | SECTION

Four Planets, One Mission

Your 10th house in Pisces holds four planets in conjunction. Sun, Mars, Saturn, and Ketu. This is one of the most career-loaded configurations a chart can carry. The 10th is the house of public visibility, professional identity, and what the world will remember you for. Four planets there means your career is the central organising axis of this lifetime.

Each Planet Adds a Specific Instruction

The Sun brings career fame, leadership, and a name that outlasts the role. The Sun in the 10th does not allow you to stay anonymous. Whatever you do, your name will travel with the work.

Mars brings drive, execution capacity, and the willingness to push projects through resistance. Mars in the 10th makes you the person who finishes things others abandon.

Saturn brings relentless work that builds stature over time. Saturn in the 10th is the slow-burn signature. Early career may feel like grinding for less recognition than the work deserves. Mid-career and later, the accumulated work creates a name that compounds.

Ketu, the dissolver of conventional career patterns, is the most important planet in this group for your question. Ketu in the 10th is one of the cleanest classical signals that you will not flourish in conventional, hierarchical career structures for the long run. You are wired for unconventional, technology-amplified, or specialised work.

04 | SECTION

The Soul Direction

Your soul planet is the Sun. The soul-significator planet's nature defines what your soul came in to learn and embody this lifetime. The Sun's themes are authority, leadership, public visibility, ethical responsibility, and the quality of standing for something. Aanya, you did not come here to be a careful manager of someone else's brand. You came here to lead.

Your career planet Jupiter sits in its own sign of Sagittarius in the 7th house. This is one of the strongest possible career-karma placements in classical astrology. Jupiter as career planet consistently produces teaching careers, counselling and advisory work, legal practice, financial advisory, and wisdom-based professions. Knowledge-based work that elevates other people.

The chart does not say leave technology. The chart says bring your tech experience into a teaching, advising, or thought-leadership role. Use the credibility you have built in product marketing as the platform for the work that is actually yours.

The Listening Star

Your Moon sits in Shravana, classically the listening star. Shravana is one of the most teaching-aligned stars in the wheel. It produces educators in all fields, scholars, linguists, translators, organisers of knowledge, and people who work with the spoken word. Shravana is associated with the act of listening deeply and then transmitting. Your emotional core is built for teaching.

05 | SECTION

Why Marketing Was the Right First Chapter

Your ascendant is Gemini. Gemini ascendants are wired for communication, multiple simultaneous interests, pattern recognition across domains, and the ability to translate complex ideas for different audiences. Your ascendant ruler Mercury sits in the 11th house of gains, in Aries, a fire sign that gives directness. This is a textbook signature for someone who can take complex products and explain them in ways that move markets.

Marketing in tech checks all three of these boxes. That is exactly why your first decade has gone reasonably well.

And Why You Are Outgrowing It

Marketing keeps you in the role of amplifier while your chart keeps trying to put you in the role of originator. You are speaking other people's narratives. The Sun-Saturn-Mars-Ketu cluster in your 10th wants you to speak your own. Ketu specifically is the planet that will dissolve your interest in roles where someone else owns the perspective. That dissolution is what you are feeling right now.

06 | SECTION

The Roles and Industries the Chart Endorses

Combining the heavy 10th house, the Sun as soul planet, the exalted Jupiter as career planet, the Shravana Moon, and the Mercury-led Gemini ascendant, the chart points to a specific cluster of roles. None of these require leaving tech. Most of them use your tech background as the credential.

Strongly Endorsed: Knowledge-Based Authority Work

Educator and operator hybrid. Teaching at the intersection of technology and business strategy. Executive education programmes, MBA adjunct teaching, corporate education partnerships. Your tech experience is the ticket. The teaching is the soul work.

Independent advisory practice. Advisor or fractional executive to companies needing senior strategic guidance. Jupiter in the 7th is a classical partnership signature. You are likely to flourish working with multiple organisations rather than inside one.

Author, course creator, thought leader. Long-form writing, courses, podcast or video work where you build an audience around a specific perspective. The Sun in the 10th demands that your name go with the work. The Mercury-Jupiter combination supports it.

Industries to Favour

Education and edtech, where the Shravana Moon, Jupiter as career planet, and Pisces 10th all converge. Publishing or media organisations doing serious work. Financial advisory or wealth education, which Jupiter rules. Healthcare and wellness-tech, where Pisces 10th house often goes. Climate tech or impact-driven companies, where Pisces themes of compassion and service align.

Industries to Be Cautious About

Pure ad-tech, attention-economy products, gambling-adjacent fintech. The Pisces 10th wants the work to elevate, and the Saturn-Ketu signature creates dissatisfaction in any career where the underlying purpose feels manipulative or extractive. You can succeed in those fields. The chart shows you will not stay.

07 | SECTION

Timing the Pivot

You entered a sixteen-year Jupiter chapter on 10 August 2021. It remains in force until August 2037. The current sub-period is Mercury, which runs through approximately end of 2026. Mercury is your ascendant ruler, placed in the 11th of gains. Decisions about direction made during this Mercury sub-period tend to crystallise into long-term commitments. The doors you walk through now will define the next decade.

Approaching: Ketu Sub-Period

After Mercury comes a year-long Ketu sub-period. Ketu's job is to dissolve attachment to things not aligned with the soul direction. If you are still in conventional product marketing when Ketu activates, that period is likely to force the question, possibly through restructuring, layoff, or a sudden loss of interest in the current role. Reading this in advance gives you the choice to make the pivot deliberately rather than reactively.

The next twelve months are the optimal window for laying the groundwork for the pivot. Build the side project. Write the first articles. Take the teaching engagement. Accept the advisory role. Use the Mercury sub-period to establish the foundation. When Ketu activates, you want to already be partly in the new direction so the dissolution accelerates the transition rather than disrupting it.

Bhagya Rise Around Age 36

Classical texts note that Jupiter in a kendra house creates a major fortune activation around age 36. For you, this falls around 2032. By that time, the chart projects that the foundation you build during the next few years will compound into a recognised authority. Plan for the long arc.

What You Will Carry With You

Three patterns deserve direct attention as you make this pivot.

Solo Time Is Where the Real Work Happens

Your 5th house of creativity and self-expression is ruled by Venus, which sits in the 12th house in Taurus, its own sign. The dignity is excellent. Venus loves Taurus. But the placement in the 12th means your most creative work happens in solitude, behind the scenes, in private studios and quiet hours. You are not at your best in open-office collaborative environments. Build your pivot around protected solo time. The 12th-house Venus rewards retreat and punishes constant social demand.

Build the Operations Early

Saturn registers as moderate strength, neither weak nor strong. Saturn rules your 8th house of transformation and your 9th house of dharma. A moderate Saturn in the 10th means the structural discipline is there, but it requires active maintenance. As you build an independent practice, build the operational systems early. Bookkeeping, contracts, defined working hours, formalised processes. Saturn-supported people thrive in independent work. Saturn-neglected people burn out.

Plan Real Retreat Windows

Your Moon is in the 8th house in Shravana. The 8th-house Moon signals an emotional life that processes through depth, transformation, and moments of inwardness. You are not a person who can stay perpetually visible without periodic withdrawal. As you build a public-facing teaching or advisory practice, build in genuine retreat windows. Quarterly minimum. Without them, the 8th-house Moon's natural inwardness will turn into burnout or anxiety.

09 | SECTION

In Closing

Aanya, your chart is unusually clear on this question. The pivot you are sensing is real and it is right. The direction is teaching, advising, and thought leadership at the intersection of technology and business strategy. The vehicle can be independent practice, fractional executive work, course creation, or a senior role in an education-leaning organisation. The timing window opens now and runs strongly through the next decade.

Marketing was the apprenticeship for the communication craft. The next chapter asks you to use the craft to amplify your own perspective rather than someone else's product.

Build the second track this year. Make the formal pivot when Ketu activates. Trust the long arc the Sun-Saturn-Mars-Ketu cluster has designed for you. The Bhagya rise around 2032 will not be dramatic. It will be the obvious recognition of work you have already been doing for six years by then.

May Saraswati guide the work of teaching. May Ganesha remove obstacles from the new path. May Brihaspati grant the wisdom your career karma asks for.

METHODOLOGY

How This Reading Was Prepared

This consultation was computed by the Cosmic Nexus intelligence platform, which applies empirically validated Vedic astrology rules against a birth chart calculated with the Swiss Ephemeris using the Lahiri ayanamsa and Whole-Sign house system. The platform cross-references four independent timing systems, Vimshottari, Yogini, Chara, and Kaal Chakra dashas, against divisional charts (D9 Navamsha, D10 Dashamsha, D30 Trishamsha), Jaimini Charakarakas, Shadbala planetary strength, and Ashtakavarga transits. Predictions are drawn from a knowledge base of more than seven hundred classical and Nadi rules, each weighted by empirical validation against a reference library of seventy-nine thousand charts.

The interpretation honours the three pillars that guide every Cosmic Nexus reading. First, read the chart honestly. Second, help the reader accept the patterns shown. Third, help the reader navigate what is ahead. Nothing here is designed to alarm or fatalistically decide your path for you.

IMPORTANT NOTE

Vedic astrology is a decision-support system, not a substitute for qualified medical, legal, or financial advice. Timing windows noted in this reading are karmic probability windows, not guarantees. Free will and effort remain primary. Where the reading indicates a difficult period, remedies and conscious action can soften the weight. Where the reading indicates a favourable period, preparation and timing choices determine how fully the opportunity is received.
